## Brenda Kelly – Vice President, Greeley Containment & Rework

Brenda currently is Vice President for Greeley Containment & Rework, a company that specializes in the quality inspection of automotive parts and vehicles for General Motors. “Working in automotive has certainly been a challenging and interesting industry.

She was raised in New Zealand, in a small country town of 3,000 and decided at a young age that she wanted to see the world.”

At 21 her travels began, taking a one-way ticket to England by herself. She has traveled around the world twice (visiting more than 40 countries), living in four of them, working in five and now residing in Canada. From filing clerk, to selling Tupperware, to self taught programmer to Vice President, she certainly has had a very colourful life to date.

These experiences and her attitude, she believes, has a large impact in the way she approaches challenges; the day to day struggles in life we all encounter and her future.

Having nothing to sell or promote to you, other than her life experiences and attitude, come share her philosophies and beliefs. Always wanting to be a motivational speaker, Brenda hopes you leave her presentation feeling a little more inspired and motivated to live life to the fullest!
